VYPANEL-RM

PVC/TPO Membrane-Faced Insulated Roof Panels

DESCRIPTION

Insulated roof panels combining a PVC or TPO waterproofing face with metal skins and an insulation core.

BENEFITS

- Combines roof enclosure and insulation
- Weldable waterproofing surface

APPLICATIONS

- Commercial and industrial insulated roofs
- Compatible refurbishment systems

INSTALLATION

- Fix panels to the designed supports.
- Close panel joints and hot-air weld matching membrane laps or cover strips.
- Seal all penetrations and complete perimeter details.

STORAGE & SHELF LIFE

- Store in original packaging in a dry, covered area.
- Protect from moisture, direct sunlight and physical damage.
- Support packs evenly and follow the supplied stacking and handling instructions.

DIMENSIONS & PACKAGING

Parameter	Value
Membrane facing	PVC or TPO; as selected
Core material	To be confirmed for the selected grade
Core thickness	To be confirmed for the selected grade
Steel gauge	To be confirmed for the selected grade
Panel width	To be confirmed for the selected grade
Cut length	To be confirmed for the selected grade
Packaging	To be agreed with the order

TECHNICAL DATA

Property	Value / status	Test method
Thermal performance	To be confirmed	To be agreed
Load and span capacity	To be confirmed	To be agreed
Fire performance	To be confirmed	To be agreed
Membrane weld integrity	To be confirmed	To be agreed

Performance values and test methods have not been supplied for these grades. Confirm the selected product specification and supporting test data before project approval.

SPECIFICATION NOTES

Confirm the core, panel schedule, supports and matching membrane details before installation.
